

**ERAM ACADEMY FOR SPORTS AND EXCELLENCE (EASE)**  
**ANNUAL REPORT 2021**

Warm greetings and regards. Really happy and proud to present annual report of our school during the academic year 2021-2022

Eram Academy for Sports and Excellence (EASE) bloomed under the auspices of Eram Educational and Welfare Trust since 2015. It has started with very few number of students but within a short span of years we reached to a strength of 300 plus students and 24 teachers. Even in the midst of pandemic we started our classes through online platform and virtualized learning and all related activities. We received much appreciation from the stakeholders. Our management was ready to take immediate steps to make arrangement for online classes. We used Eduplus as the platform to conduct our online classes. Teachers were the key figures of success of online classes and support given by parents and students are also noteworthy.

We could organize a variety of social and cultural events virtually. All the important days were observed with greater enthusiasm. School opened on June 1 and we observed World Environment day with great spirit. Reading week and an array of different observances like, Music day, Yoga Day, Vaikom Muhammed Basheer day, Anti-Drugs Day, Kerala Piravi Dinam, Gandhi Jayanthi, and Diwali etc. were observed virtually with the involvement of students in various competitions. School opened after chaos and confusion but it was really admirable that all students came to school without any hesitation. We could arrange a healthy and hygienic school for them which was also appreciated by parents and the community surrounding us. Other celebrations like Children's Day, Christmas etc. were celebrated with full-fledged strength of students keeping all covid protocol. Monthly test and Periodic test were conducted regularly to check student's academic excellence. Annual Exam was conducted on March 21<sup>st</sup> onwards and result published on 8<sup>th</sup> April. Graduation ceremony of Senior Kindergarten was a colorful programme held on 2<sup>nd</sup> April. We have been treated everyday especially so as to appreciate children's small and big acts. It is our mission to strive higher and give quality education to all our children. This untiring spirit will lead us to lifelong achievements in future. I conclude the report with a prayer to Almighty thanking him for his benevolence and grace seeking his blessings to make our future bright and rewarding.
